

# RippleZoo Cameroon Financial Report

January 2019

## THE WORK COMPLETED AND ACHIEVEMENTS

On November 22nd 2018, 13 volunteers travelled to Cameroon. As a result of the kind donations and support from so many people we were able to achieve the following:

- €150,000 of medical equipment, beds, prescription medicine and other supplies were distributed to hospitals in Batoufam and Fumboot.
- In the Batoufam hospital we undertook a major construction project. The hospital now has running water, toilets, showers and considerably improved sanitation conditions. Less people will die and/or need to endure inhumane conditions.
- 90 young primary school students in Batoufam will be taught today in renovated, clean and beautifully painted classrooms. 3 more classrooms are considerably enhanced.
- The 90 students were each provided with a full set of school books.
- The community of Batoufam (12,000+ people) have an advanced learning computer room, complete with internet access that will provide them both education and business opportunities.
- Hundreds of orphans have new clothes and many were given a small present to open on Christmas day, maybe their first ever teddy bear.
- And most importantly, many hundreds if not thousands of Cameroonian people who suffer terribly and have little hope of escaping extreme poverty now know that there are people outside of their little world who love and care for them.
