Speakers

Speakers are coming from different backgrounds and different countries so the first question will be the same for everyone as it is based on a personal opinion and they will have different views on it. We as *sc4ps* strongly believe that we can be more successful in advocating for women rights working together with women and men, **inclusion** is a key term.

Time frame of the conference

First 5 minutes at maximum will be dedicated to the introduction of the conference and of the organization **sc4ps**.

Then the floor will go to the moderator that will give the floor to Ms. **Angelica Romano** that will introduce **Un Ponte Per** and their activities. Then the moderator will introduce the first question for the speakers that will have around 7/8 minutes (maximum) for their answers.

The first question for everyone is:

Why more women are needed in leadership positions and why? How are women represented in Leadership positions from the community where you live or in your life experience?

Little follow up questions or comments will be done by the Moderator based on the answers and the questions that we might have been done by participants on our social media channels or in the zoom meeting.

Guests can join directly the zoom room meeting and can make their own live questions and comments by taking the mic when the moderator will give them the floor or can in alternative always make comments in the chat box.

Please turn off your mic when you are not talking to avoid noises. To have a better interaction we would appreciate that not only the speakers but also guests turn on their cameras during the event, but we can understand cases of low speed connection as well.
